

Playsets

All of our playsets are handcrafted and built with quality and affordability in mind. We use Grade #1 pressure treated (KDAT) Yellow Pine. This means our lumber is (kiln-dried after treating) this allows a more desirable look, minimizes cupping and warping, and it allows us to stain or seal our playsets immediately. It also means our playsets will resist rotting and insect damage, and with proper maintenance will last for many years to come. We mill all sides of our lumber to ensure there are no sharp edges or splinters so your kids can have a worry-free adventure.

All of our sets are fully customizable, you pick out the features that you like and we build it to your specifications. If you do not see what you like, ask us, we are only limited by your imagination and budget. you can pick-up your playset and assemble it yourself (using easy to understand directions) or, (for an additional charge) we can deliver your new playset fully assembled. Either way, your children will enjoy and grow with your new Northwoods Playset.

Starting at \$350.00 for a 10' 2-swing, and a glider playset
