

Wood Gazebo

Our **Wood Gazebos** provide a timeless style with modern conveniences. Constructed from top quality, Pressure treated appearance grade southern yellow pine. Our *standard* construction consists of 4x4 treated skids, 2x6 floor joists, 5/4 deck boards, 2x4 rails, 2x2 spindles, tongue and groove knotty pine ceiling, 30-year shingles, topped off with a cupola. These units are **completely customizable** and come in many sizes. You can upgrade to full screens or our 4 track window/screen panels. Connect to an existing deck, or structure (additional charges may apply), or use as a stand-alone.

These Units can either be built at our manufacturing facility and shipped to your prepared site, or we can build on your site

(additional charges apply). The pad must be 4” to 6” wash gravel or limestone and level 12” beyond all sides of the structure. We can also build a platform for your gazebo if your site requires (additional charges apply). Delivery up to 20 miles (from our Newbury location) included with the price. Our gazebos also come in white maintenance-free material, or they can be pre-stained at our facility.

Prices start at \$2670.00 for an 8x8 Wood model
